

OPAC a faccette, ovvero un'altra faccia degli OPAC

Andrea Marchitelli – CILEA

“Knowledge Organization on the Web”

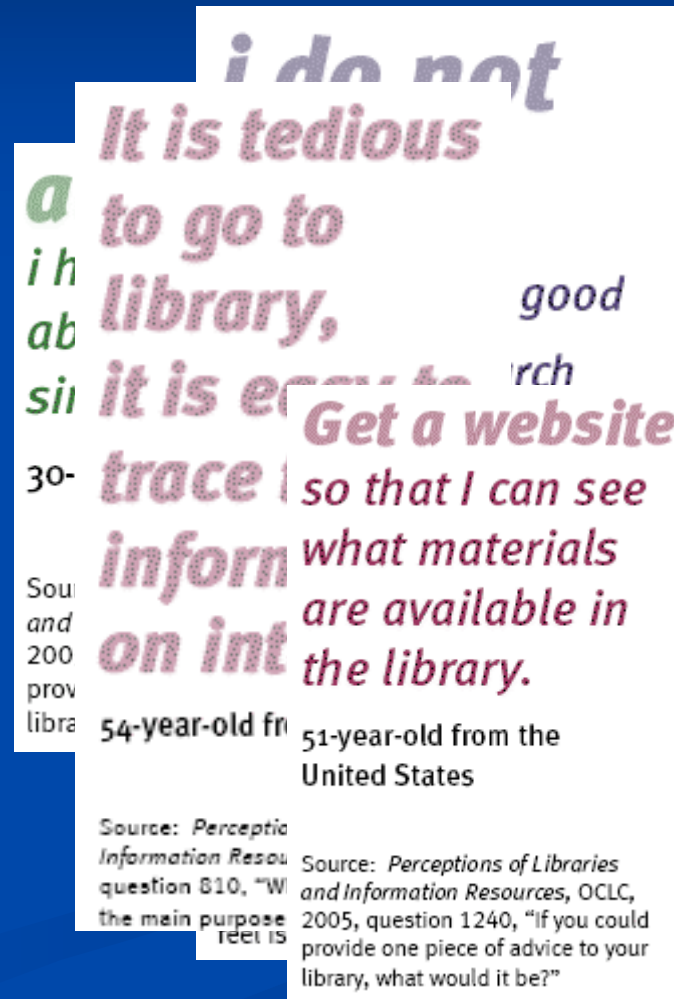

Napoli, 5 settembre 2008

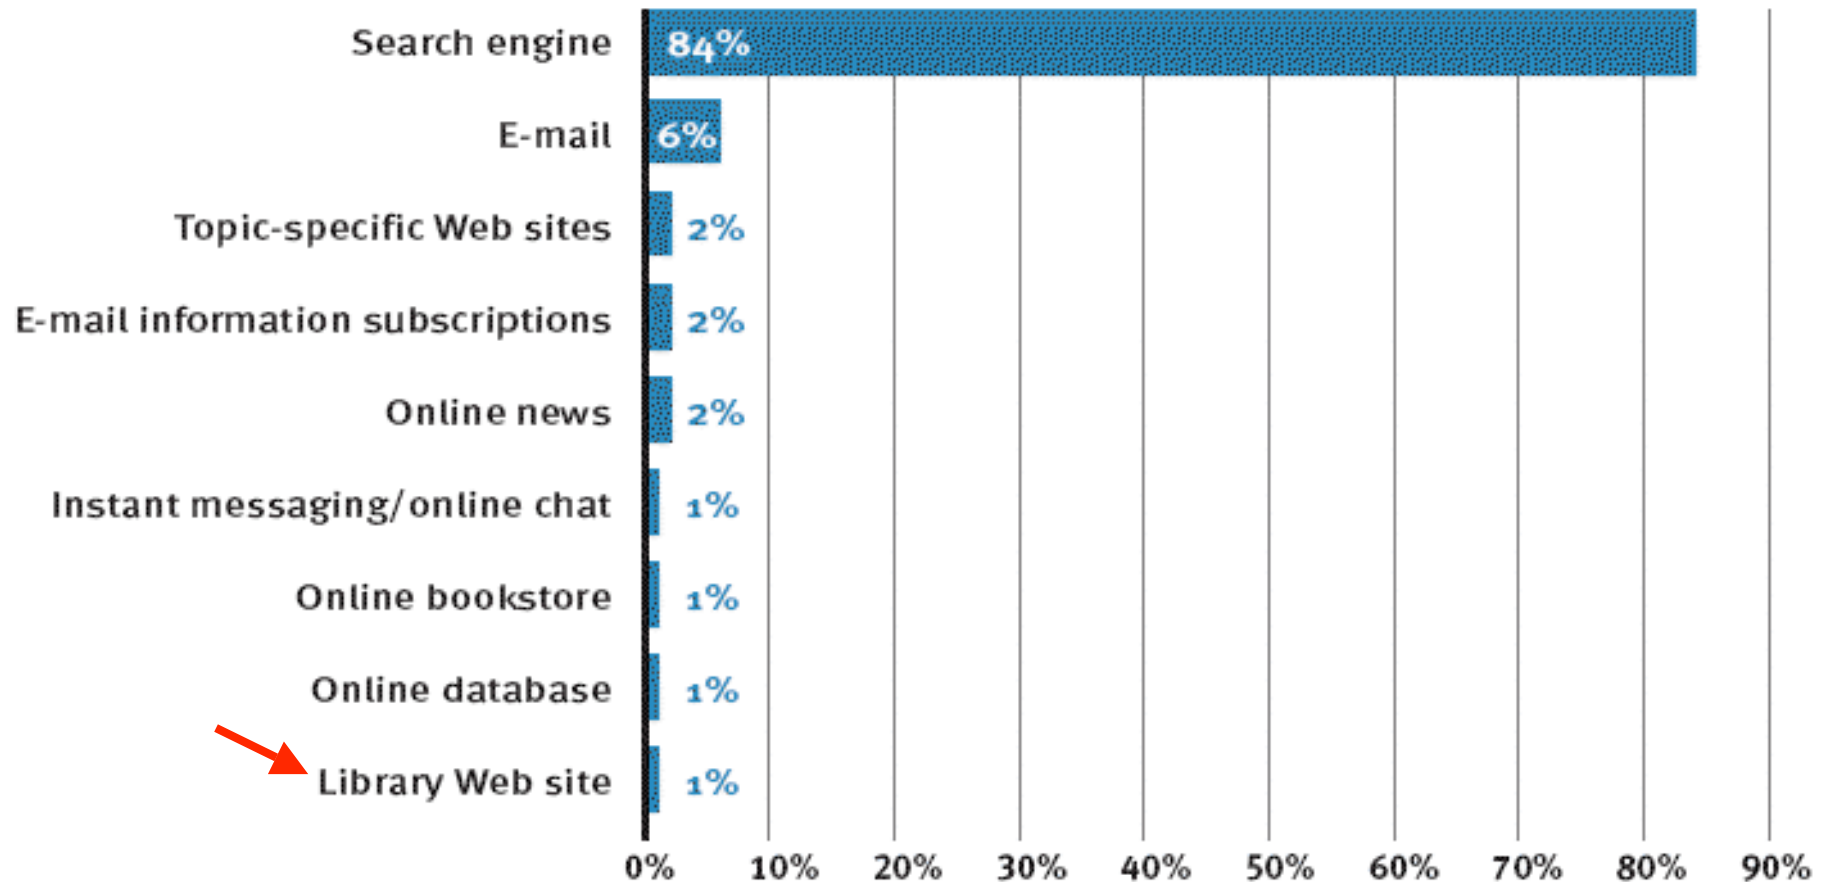

Che cosa è una biblioteca

- Raccolta ordinata di libri e documenti su supporto diverso (CD-ROM, microfiches, audiovisivi, ecc.) messa a disposizione del pubblico per motivi di lettura e studio.
- La biblioteca è anche il luogo fisico dove i documenti si trovano

raccolti

Dove cerchiamo le informazioni?

Source: *Perceptions of Libraries and Information Resources*, OCLC, 2005, question 520.

Ci sarà un motivo?

The image shows a search interface with the following elements:

- Titolo:**
- Autore:**
- Soggetto:**
- Anno di pubblicazione:** dal al
- Three **Lista** buttons are positioned to the right of the search criteria.
- The main heading is **Risultato della Ricerca**.
- The result message is **Nessun record trovato**.

za degli utenti

... in quale direzione?

- suggerimenti in merito ai termini digitati per la ricerca (es. “Forse cercavi: ...”)
- l'ordinamento dei risultati basato sulla “rilevanza”
- raggruppamento dinamico
 - faceted search
 - faccettazione dei risultati di ricerca
 - filtro di ricerca

Faceted browse – Faceted search

- Si tratta di due usi diversi:
 - Un browse per gruppi considerati nei loro diversi aspetti (faccette)
 - Un raggruppamento dinamico dei risultati di ricerca, per agevolare con la grafica i successivi raffinamenti

Browse a faccette

- Replica il comportamento fisico dell'utente:
 - Si avvicina a un certo scaffale (es. novità, o alla sezione ragazzi, o alle opere di prima informazione)
 - Scorre lo scaffale in ordine (argomento, o autore)
 - Guarda le copertine, magari legge i risvolti
- Così potrebbe essere sull'OPAC:
 - Fornire all'utente la possibilità di una scelta iniziale, con raffinamenti successivi
 - Integrare il contenuto informativo del catalogo
